

Univase™

Now Improved!

Simply the Best Proteolytic Enzyme Available in the World Today

More Great Things from the Enzyme Technology Leaders

Univase™ is a potent blend of vegetable and animal source proteolytic, amylolytic and lipolytic enzymes. Univase™ contains the important free radical fighters SOD and Catalase. Univase™ also contains the important enzyme activator L-Glutathione as well as calf thymus concentrate. Univase now has N-Acetylcysteine which has been shown to enhance the body's own production of L-Glutathione.

Univase™ is the culmination of more than a quarter century of experience in the proteolytic enzyme field. The formula has evolved into the most potent and effective enzyme supplement available in the world without prescription.

Univase™ was the first and remains one of the few enzyme supplements to contain 3,000 IU of α -Chymotrypsin, one of the most potent and long-lived enzymes available for oral supplementation. Univase now also contains powerful enzyme Natto-Kinase (non-GMO).

The key to the effectiveness of any enzyme formulation is getting the enzymes absorbed so that they can be transported to the target site and activation when they get there. Univase™ has been specially designed by a pharmacist and a biochemist to maximize absorption and ensure the sustained systemic effect of the enzymes.

Compare our Univase™ ingredients (see the reverse) with the enzymes you currently use. Then compare the price. We believe that you will be impressed with both. Most importantly, we believe that you will be impressed with the results you will see. Give us a try then make the switch!

Univase™ is available in 90 capsule, 200 capsule, 400 capsule, and 800 capsule sizes.

Supplement Facts		* DV has not been established
Serving size: 3 capsules		Also Contains: Hydroxypropylmethylcellulose, pectin (Veg. Cap.), maltodextrin, medium chain triglycerides
Servings per container: 66		
Amount per 3 capsules	%DV	Recommendation:
Pancreatin (porcine) 3,750 mg	*	One to 3 capsules 3 or 4 times per day between meals or as otherwise directed
Papain (papaya) 300 mg (198,000 PU) (contains sulfites)	*	
Bromelain (pineapple) 300 mg (396,000 PU)	*	Distributed by: Rocky Fork Formulas, Inc. Newark, OH 43055 800-630-4534 www.rockyforkformulas.com
Trypsin (porcine) 720 mg (54,000 USP U)	*	
Lipase 150 mg (600 FIP U) (C. rugosa & porcine)	*	 0632930922352
Amylase 150 mg (750 DU) (A. oryzae & porcine)	*	
alpha-Chymotrypsin 9 mg (9,000 USP U) (porcine)	*	
Natto-Kinase Blend 15 mg (300 FU)	*	
Serratiopeptidase 30,000 SPU	*	
Calf Thymus 165 mg	*	
L-Glutathione 30 mg	*	
N-Acetylcysteine 30 mg	*	
Alpha-Lipoic Acid 30 mg	*	

Proteolytic enzyme therapy is designed to provide maximum support to the body in combatting inflammation, pain, swelling, etc.

Some of Rocky Fork Formulas' synergists for this formula are:

Co-Enzyme Q10, Hypo Gestaid, Toler Gestaid, Vasculase, Virex Complex, Zinc Orotate

Proteolytic enzymes aren't just an aid to digestion. While Univase™ and Univase Forte™ are excellent for this purpose, they are also highly effective support for systemic use in support of the body in fighting a number of stubborn and difficult problems. If these enzymes are to be used as a digestive aid the recommended dosage is 1 or 2 capsules just prior to a meal. For systemic use the dosages vary but capsules should be used as far from meals as possible.
